

## **Asbestos Management**

The School shall comply with the Asbestos Hazard Emergency Response Act (“AHERA”) of 1986, and with the following action items as recommended by the U.S. EPA:

1. Perform an original inspection and re-inspection every three years of asbestos-containing material;
2. Develop, maintain, and update an asbestos management plan (“AMP”) as required by law, a copy of which will be maintained at the school;
3. Provide notification of any asbestos abatement actions taken or planned in the school;
4. Perform periodic surveillance of known or suspected asbestos-containing material;
5. Ensure that properly-accredited professionals perform inspections and response actions and prepare management plans; and
6. Provide appropriate staff with asbestos-awareness training or ensure that outside vendors have verification of the same.
