

Vehicle Idling Policy

In recognition of safety and resource conservation, the Board of Directors of the School adopts the following policy to eliminate all unnecessary idling by vehicles.

When vehicle drivers arrive at the School to make deliveries or transport students they should turn off vehicles as soon as practical to eliminate idling time and reduce harmful emissions. The vehicle should not be restarted until it is ready to depart and there is a clear path to exit. Exceptions include conditions that would compromise passenger safety, such as extreme weather conditions or idling in traffic.
