

## **Pesticide Notice and Log Policy**

In accordance with Ohio law, parents and guardians of minor children, adult students, faculty and staff who are enrolled or employed at the School may request and receive prior notifications of the applications of pesticides which are scheduled for a time when school is in session. All such requests shall include the requesting party's email address and/or telephone number and shall be submitted to the School Leader. The School Leader is designated as the contact person for all pesticide applications made at the School. The School Leader or his/her designee will provide prior notification by email, a hard copy writing, or phone call (method selected at the School Leader's discretion) to all those who request such notification. The notification shall include: the date and time that the pesticide was applied; the area of application; the targeted pests; the type of pesticide applied; and when applicable, the time and conditions for re-entering the treatment area as specified by the pesticide label.

If special circumstances arise that prevent prior notification from being provided such as emergency application of pesticides to control organisms that pose an immediate health threat, the School shall provide notice as soon as possible. The notice shall explain the reasons why advance notice was not provided.

Additionally, pesticide logs shall be available for inspection at the School Office during normal school hours. Such logs shall include: records provided to the School Leader pursuant to this policy and documentation that requested notifications were made. Said logs shall be retained for a period of one year following the date of the pesticide application.

This Policy shall not apply to disinfectants, sanitizers, germicides, and anti-microbial agents.
